ABOUT ME

Fullstack Developer with over 5 years of experience, skilled in all stages of the software development lifecycle. I have expertise in robust projects, such as ERP and e-commerce solutions, using technologies like **React, React Native, Node.js, Next.js**, and **TypeScript**. Experienced in **Agile methodologies (Scrum)**, **Git** version control, and deployments on platforms like **AWS** and **Vercel.** My professional background at companies like **ATS**, **FidenTech**, **Surto MKT**, and **Compass UOL** has equipped me with versatility, leadership skills, and the ability to tackle new challenges.

EXPERIENCES

- **ATS Web Solutions** - *Fullstack Developer (June/2024 - September/2025)*

  Experienced in developing diverse projects with a strong focus on **projects built from scratch**, I have built e-commerce platforms and administrative dashboard systems from the ground up. **Prioritized SEO optimization**, **accessibility**, and **data security** while leveraging **modern technologies**. Implemented key solutions including authentication systems, state management with Zustand, Context API and React Query, payment gateways, and logistics API integrations, ensuring high performance and compliance with industry best practices. Technologies: **Next.js, React.js, TypeScript, Node.js, TailwindCSS, Shadcn, Prisma ORM, Drizzle ORM, MongoDB**.

- **Fidentech** - *Fullstack Developer (March/2024 - January/2025)*

  The tasks were defined in Jira, using **SCRUM** as an agile methodology. The project was an original product of the company to manage the ERP, finances and balance sheets of the contracting company. The product was developed using **Oracle Apex** and **Javascript**. Technologies: **Javascript, Oracle CX Commerce, CSS5**.

- **Surto MKT** - *Fullstack Developer/Mobile (January/2023 - November/2023)*

  I have done several projects for the company, such as creating web solutions, news sites, e-commerce, and mobile applications. All projects were developed by me from scratch until publication. **Git** was used for code versioning and creation of **CI/CD** flows with deployments in services such as: **Vercel, Heroku, Netlify, AWS, Hostgator**. Technologies: **React, NextJS, React Native, TypeScript, NodeJS (Express), Redux, Firebase, Prisma, Supabase, MongoDB, TailwindCSS, Shadcn**.

- **Compass UOL** - *Frontend Developer (July/2021 - May/2023)*

  I developed interfaces for e-commerce applications using the **Oracle CX Commerce** platform. I worked on large projects such as **Conexão Melissa, iPlace (Uruguay), Marfrig, Livelo**. I worked

on projects with large teams and small teams, some of which I led. Tasks were assigned in Jira through sprint definition meetings (**SCRUM**). The process of implementing features was done through **Git Flow** and **Code Review**. Technologies: **React, KnockoutJS, GraphQL, Bootstrap, JavaScript, Redux**.

- **Agência Guia-se** *- Fullstack Developer/Mobile - (February/2020 - July/2021)*

  I was responsible for the entire implementation of the company's web services. I designed the application layouts (**Figma, Adobe XD**) and implemented them from scratch to deployment. I worked as a solo developer on Blogs (**SEO, CMS, Wordpress**), E-commerce (**Tray, Loja Integrada, VTEX**), capture pages (**Google Analytics, Meta Tag**), institutional websites, and dashboards. Technologies: **React, NextJS, React Native, NodeJS (Express), Javascript, SASS, Styled-Components, Bootstrap, PWA, Vite**.

- **BizCommerce** *- Frontend Developer - (June/2019 - February/2020)*

  I developed frontend interfaces for e-commerce projects on Biz's internal platform. The designs followed the layouts sent by the **UX/UI** department. Technologies: **HTML, CSS, Javascript**.
